

1. Operations On Large Numbers

Work Sheets- 1

I) Read and Write the number names of the following:

1) 2,14,030

2) 12,923,075

II) Build the number which have:

3) 5 thousands , 4 hundred, 2 ones

4) 10 lakh, 50 thousands, 6 tens 7 hundred

III) Simplify the following:

5) A farmer produce 50kg of wheat 78kg of pulses and 18kg of rice. How much did he produced together?

6) find the sum of $7344393+1400015+9346+11258$

7) 6,427 less than 76,427

8) find the 9137×784

9) $867350 \div 627$

IV) Simplify using DMAS rule

10) $5 \times 3 + 8 \div 4$

V) Write the numerical expression for the given word problems:

11) find the sum of the difference between 16 and 4 and the product of 9 and 3.

12) Multiply the quotient of 18 and 3 by the sum of 5 and 8.

VI) Write the word statement for the given numerical expression:

13) $(19 \times 10) \div 19$ 14) $12 \div (18-6)$

15) 2, 3, 6, 7, 10, 11, 14, 15, _____.

16) 8 ,9 ,10 , 16 ,17 ,18 , 24 ,25 ,26 , _____.

3. Roman Numerals

Work Sheet- 3

I) Write the Roman numerals in normal form.

1. CLI = _____

2. MDCCLX = _____

3. CCXCIV = _____

4. CLXXV = _____

5. CLXXXIII = _____

6. MCMV = _____

7. CCXLV = _____

8. XXIII = _____

9. CLXVII = _____

10. CCCXXV = _____

II) Write the Hindu-Arabic numeral for the following:

1. 1666 = _____

2. 1888 = _____

3. 1956 = _____

4. 1898 = _____

5. 2000 = _____

6. 1756 = _____

7. 2013 = _____

8. 2011 = _____

9. 1990 = _____

10. 2001 = _____
